Overview

Center 2 (19050), United States of America, McLean, Virginia
Sr. Business Analyst

As a Senior Business Analyst in AML's modeling group, you will drive projects and collaborate with data analysts, data scientists and risk experts to develop solutions that protect our country and save the company from fines that run into the hundreds of millions of dollars. You will do it all in a collaborative environment that values your insight, encourages you to take on new responsibility, promotes continuous learning, and rewards innovation.

Specific responsibilities include, but are not limited to:

Analysis: Identify business challenges and opportunities for improvement and solve for them using analysis to make strategic or tactical recommendations

Product: Perform modeling/analytics to develop new risk management strategies

Execution: Involve problem frameworks; ideate and form hypotheses, test and analyze; develop solutions; scope operational feasibility; lead implementation efforts; and develop monitoring plans

Partnership: Work closely with colleagues across Capital One to drive improvements in quality and effectiveness

Desired qualities include:

Strategic & analytic development: A proven track record of decision making and problem solving based on analytics. Conceptual thinking skills must be complemented by a strong quantitative orientation

Strong business judgment, leadership and integrity: Tenacious decision maker, able to bring a healthy, aggressive, yet responsible approach to business. Drive and execute an agenda in an uncertain and fluid environment

Strong communication skills: Impeccable written and oral communication credentials, coupled with strategic influencing skills and the ability to drive agreement through intellect, interpersonal and negotiation skills

Clear results orientation: Display an intense focus on achieving both short and long term goals. Successful track record of thriving in a fast paced, entrepreneurial and dynamic environment.

Basic Qualifications:

- Bachelor's Degree
- At least 1 year of experience in quantitative and qualitative analysis

Preferred Qualifications:

- Master's Degree
- 1+ years of experience in Statistical model building
- 1+ years of experience in market research
- 1+ years of experience in SQL querying
- 2+ years of experience in business analysis
- 1+ years of experience in consulting
